### **Park Operations and Projects**

Park operations currently maintain all town parks and green spaces. This includes both Hebron Schools.

### General Park Plans

The Parks Department is using an integrated cultural pest management plan. This plan entails using common sense and good cultural practices in the maintenance of turf.

#### Keys to Success

- Identification of the source of any problems
- If problem-what is the cause (i.e., disease, insect, weed)
- Determination of the tolerance level for pest
- Regular Scouting
- Determination other means available then pesticides
- Identification and implementation of cultural techniques to manage pest problems
